LONG-WEARING SOLES MEAN LOW SHOE BILLS

"I have never been able to get half the service from other soles that I get from Neolin Soles," says H. H. Sheller, a traveling salesman of Easton, Pa.

Long service from the soles means lower shoe costs, for that is where shoes wear out quickest. When next you need new shoes buy them with Neolin Soles. You pay no more than for shoes that give less wear—and you can get them in many styles for men, women, and children.

Have these durable, comfortable and waterproof soles put on your old shoes, too. All good repair shops carry them. They are made, scientifically, by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels, guaranteed to outwear all other heels.

THE MOST DANGEROUS DISEASE

No organs of the human body are so important to health and long life as the kidneys. When they slow up and commence to fail in their duties, look out! Find out what the trouble is—without delay. Whenever you feel nervous, weak, dizzy, suffer from sleeplessness or have pains in the back—wake up at once. Your kidneys need help. These are signs to warn you that your kidneys are not performing their functions properly. They are only half doing their work and are allowing impurities to accumulate and be converted into uric acid and other poisons, which are causing you distress and will destroy you unless they are driven from your system.

BUMPER CROP OF WINTER WHEAT FORECAST.

The largest crop of winter wheat ever grown was forecast for this year by the Department of Agriculture basing its estimate on conditions existing April 1. The enormous yield of 837,000,000 bushels was announced, which at the Government's guaranteed price of \$2.26 a bushel places the crop's value at \$1,891,620,000.

This winter's winter wheat crop, if no unfavorable conditions develop between now and the time of harvest, will be 152,000,000 bushels larger than the previous record crop produced in 1914, and 248,000,000 bushels more than was grown last year.

The condition of the crop April 1 was 99.8 per cent. of a normal.

Production of winter wheat last year was 558,449,000 bushels, and in 1917 it was 412,901,000 bushels, while the record crop of 684,990,000 bushels was produced in 1914.

The condition of the crop on April 1 last year was 78.6 per cent. of a normal, while in 1917 it was 63.4 and the average of the last ten years was 82.3.

GET JACKS READY.

The breeders of jacks are encouraged by the ready sale of good blooded mules. They should also be encouraged by the recent action of the Kentucky State Fair Board when it allowed extra prize money for six new rings for jacks and jennets. This action was taken at the request of the jack breeders of the State who had raised \$175 for additional prizes at the 1919 show. This brings the total prize money for jacks and jennets to \$930.

Every farm paper is urging better brood mares on the farms to rear better mules. Fine mules are sired by splendid jacks and nothing can do more to improve the jack stock in Kentucky than a big exhibition of animals at the State Fair next autumn.

HOW CAN YOU TELL YOUR FAVORITE TOBACCO?

As Plain as the Nose on Your Face—Just Smell It

Smokers do not have to put tobacco in their pipes to find out if they like it. They can just rub the tobacco between the palms of their hands and smell it. The nose is an infallible guide to smoking enjoyment.

All smoking tobaccos employ some flavoring "to improve the flavor and burning qualities of the leaves", to quote the Encyclopedia Britannica. Naturally, there is considerable difference in the kind of flavorings used, and the nose quickly detects this difference. TUXEDO Tobacco uses the purest, most wholesome, and delicious of all flavorings—chocolate. And the almost universal liking for chocolate in a great measure explains the widespread popularity of TUXEDO Tobacco.

Carefully aged, old Burley tobacco, plus a dash of pure chocolate, gives TUXEDO Tobacco a pure fragrance your nose can quickly distinguish from any other tobacco. Try it and see.

GERMAN ARMY STILL IN CONSIDERABLE FORCE.

WASHINGTON, April 10.—Figures on the latest status of the military forces in Europe, Gen. March announced Saturday show that the armies in the Central Powers, as now organized, constitute about 15 per cent. of their strength when the armistice was signed, while the Allied forces still organized comprise 75 per cent. of their total strength on November 11.

Official dispatches show the aggregate strength of the Central Powers now as 1,125,000 men, against their combined strength in November last of 7,630,000 men. The Allied armies in November totaled 13,663,000, of which only 25 per cent. have been demobilized, leaving a force of now more than 10,000,000.

The German army, estimated officially at 4,500,000 on November 11, has been reduced to 820,000; the Bulgarian army has dropped from 500,000 to 129,000; the Austrian from 2,230,000 to about 60,000, and the Turkish from 400,000 to less than 20,000.

The strength of the American army on April 5 was estimated at 2,055,718. This represents, Gen. March said, a demobilization of 44 per cent. of the enlisted and 48 per cent. of the commissioned personnel.

Demobilization of the American army including incomplete reports to April 5, has reached a total of 1,624,171, of whom 91,674 were officers. Troops ordered for demobilization total 1,836,500.

LOWER PRICES FOR CLOTHING NOT PROMISED.

No decrease in the prices of medium and better grade clothing and possibly a moderate reduction in lower grades containing reworked wool (shoddy) and cotton, that is the prospect for the fall and winter of 1919.

This statement was given out officially at Chicago as representing the opinion of members of the National Association of Retail Clothiers and the National Association of Clothing Manufacturers who met there to consider the situation.

The basis of the situation lies in continued high prices for raw material and labor, it was said by the delegates through their spokesman, L. C. King, of Chicago.

FOR BILIOUS TROUBLES

To promote a healthy action of the liver and correct the disorders caused by biliousness, Chamberlain's Tablets are excellent. Try them and see how quickly they give you a relish for your food and banish that dull and stupefied feeling.

Here's the big work, little cost tractor—the Titan

THE Titan 10-20 has been on the market for years, and has made good without reservation. 10 horsepower at the draw bar—20 horsepower at the belt.

A well-balanced tractor that is suited to all farm power work. It drives easily, affords maximum pulling power for its weight, and is suited in every way to the general run of farm work. Not too large for the small farm, yet large enough to handle a great volume of work.

Use it with an Oliver Plow—

We recommend that you use an Oliver plow with your Titan tractor because it means the best plowing under all conditions. The combined rolling coupler and jointer buries all trash and weeds at the bottom of the furrow; the stop device maintains an even depth of furrow; the plow points enter and leave the ground first, making it possible to plow clear to the ends of the field; and the trip rope control operates easily from the driver's seat on the tractor.

We have a full line of Oliver plows as well as the Titan tractor here at our salesroom.
